I remember
them in the past,
when it was Christmas,
we always went to
the Cinema

But how did it get there?

And when we got home,
the gift was waiting for
us

3.

It always started with me and my brother
getting dressed to go to the cinema...

Until then, our father went to the
storage room and brought something.

And you should know that my brother
hated wearing jeans.

Then after we were ready, we went out and waited for the elevator.

While our dad quickly did something inside

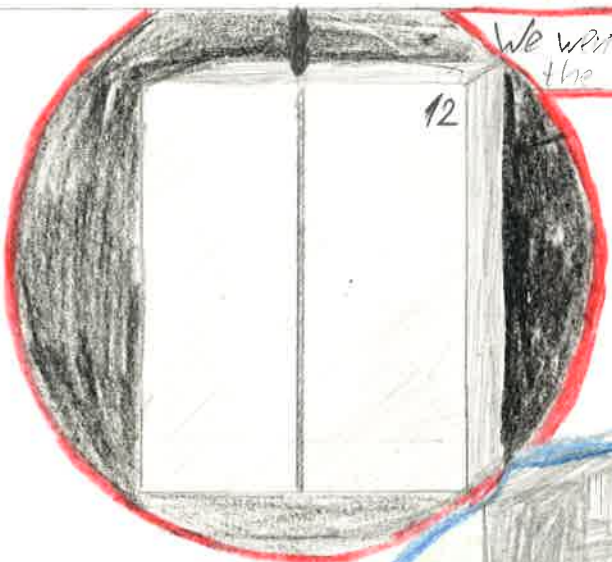

But what did he do?

After that he also went out the door and closed it.

We went down the elevator

And we went to the cinema

We got into the car

3

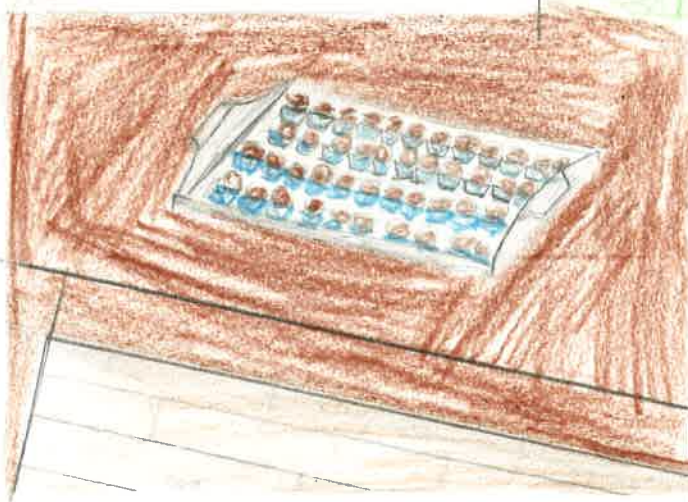

then... After we got home and opened the door...

In addition to the cinema, something else was missed

And we still had that delicious cookies...

Which I can already do for myself

4

And do you already know how the gifts get there?

22.

I'll tell you

23.

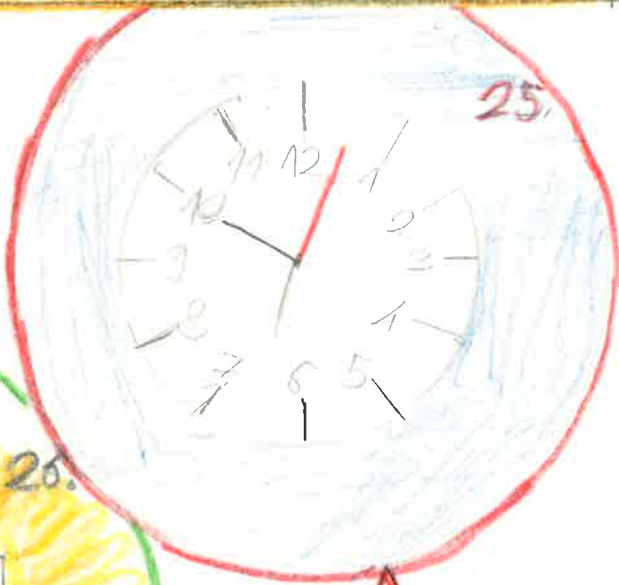

At the beginning, my dad went out to the storage room

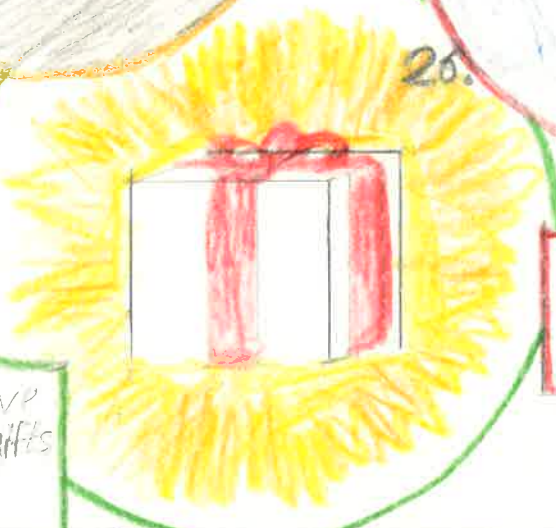

24.

25.

26.

Then we had to wait for our dad, because he was doing something

And when we arrived the gifts were there

Don't you understand

27

My dad is the Santa! 28.
